## Recycling Contribution

Since July 1st, 2001, all electrical and electronic equipment has been levied by a recycling contribution. This contribution is used for future environmental treatment of the equipment once the customer wants to dispose of it. HP has set up a transparent system that allows partners to invoice the contribution to their customers in a visible and easy manner.

This price list includes an additional column indicating the contribution per product. In the table mentioned beneath you will find the contribution (in Euro, VAT incl. and excl.).

Should you need more information with regards to the take back system, please do not hesitate to contact Recupel at 02/706 86 10 ([www.recupel.be](http://www.recupel.be))
